Faith Advisory Council for Community Transformation

In Collaboration with

Presents a Forum on ...

Jurisdictional Collaboration for
Community Transformation

... and the

Synergistic Efforts of the
Non-Profit Sector

MARCH 16-17, 2018

Welcome

The FAACCT Team would like to invite you to attend "Community Impact 2018" scheduled for March 16-17 in Victorville, California.

We are excited to partner with The Statesmen Project in highlighting what is happening in the High Desert and Southern California region. We hope that you will take the time to come and receive encouragement in your pursuit to make a difference in the lives of the people in your city and community.

FACCT is interested in helping leaders connect with others in their cities to create a movement of compassionate care. We are convinced that in sharing our stories together, we can find ways to cooperate and collaborate for the good of all.

This event is intended to inspire and equip! We hope you will come and invite others with the same heart to make a difference. May God bless you and we'll see you soon at COMMUNITY IMPACT 2018!

The FACCT Team

Building Bridges,
Expanding Capacity,
Transforming Communities

Purpose

The purpose of this forum is to equip and encourage community leaders in the arena of social and cultural transformation. We aim to do this by focusing on Jurisdictional Collaboration for Community Service and the Synergistic Efforts Between Non-Profit Organizations.

In a world of competition, division and ideologies, our communities suffer. Government and religion clash; social agendas and political ideas are at odds. In the meantime, families and individuals struggle simply needing help and a hand up to a better way of life. It is time for people to come together with a passion to serve those who are disadvantaged. FACCT is positioned to make a difference! FACCT aims to serve and assist in ...

How to collaborate and partner with local government, community and Faith Based Organizations as you access resources for community projects.

How to expand your membership support partners as you address the needs of your local communities.

How to identify which FBOs are best prepared to assist local government agencies and coordinate training.

Our goal is to hear from FBO's, Non-Profits, Civic Leaders and Others and learn how we can work together to serve our community through common values, efficient collaboration, and effective service provision.

With a number of leaders wrestling with the "how to's" of being effective in their communities, we hope to leverage change by informal examples to community, church and city leaders invited from California, Nevada and Arizona.

Sponsors

FAITH ADVISORY COUNCIL FOR COMMUNITY TRANSFORMATION

FACCT is a 501(c)3 organization comprised of a core group of faith and community leaders creating a culture of collective impact through motivating, mentoring and mobilizing the capacity of religious, community and government stakeholders in San Bernardino County and the greater Inland Empire region of Southern California. We are committed to improving services dedicated to promoting healthy, revitalized and sustainable community transformation.

THE STATESMEN PROJECT

The Statesmen Project is an international movement of concerned citizens responding to the growing economic and social crises with practical Biblical principles and models that solve specific community and national problems. We are a group of people seeking to transcend self-interest, and politics as usual, to help our communities and nations thrive out of these crises.

The Statesmen Project focuses strongly on finding cities and regions modeling community and social transformation through service. Our goal is to encourage church and community leaders to spring-board off of these examples of unity, cooperation and effective local problem-solving.
