## GOSTRATEGIC

The battle to keep the concept and context of the reality of worldview, borders on being a conspiracy held by the leaders of global culture. As a discipline, worldview is capable of changing every nation on this earth. What and who is self-consciously ensuring this discipline is never broadly released?

- When seriously studied, worldview is an essential tool in discipling nations.
- Worldview changes the intellectual maturity of all who have identified their own worldview.
- There is spiritual warfare around the revealing of the primary worldview concepts due to the inherent power that rests within them.

## SESSION 2

8:20am PDT | 10:20am CDT | 11:20am EDT

**DR. SIMON MOULD**  
BRIDGEPOINT FORUM

### *Leading a Recovery in a Knowledge Economy Recession*

Information has become a vital form of currency with varying levels of purchasing power. But information supplied in the digital economy has been cheapened with an overabundant supply of fake news, click bait, and social media influence. When faith in the truth is undermined, a culture of misinformation ensues. Christian leaders acting as agents of change must restore the value of wisdom and truth by presenting a biblical worldview in today's knowledge economy.

- **The knowledge recession:** Distraction surplus and attention deficits
- **The knowledge supply:** Short-term assumptions vs. long-term thinking
- **The knowledge demand:** Preparing to meet the need for wisdom-based solutions

**The School of Strategic Living (GoLife)** is foundational worldview training that began in the home of Dennis Peacocke in the 1980s with a vision to equip his children with tools to prepare them to be leaders in their generation. In 1991, this family exercise was developed into a course for emerging leaders of all ages by equipping them to think biblically, challenging them to live strategically, and providing insights for leading effectively.
